AN ORDINANCE TO ESTABLISH THE DEPARTMENT OF PUBLIC WORKS AND SERVICE, TO DESIGNATE AND PRESCRIBE THE FUNCTIONS THEREOF, AND TO DESIGNATE THE DIRECTOR THEREOF.

THE CITY OF EAST GRAND RAPIDS ORDAINS:

SECTION 1. The functions of the Director of the Public Works and Service Department shall be performed by the City Manager, and the City Manager is hereby designated as the Director of the Public Works and Service Department.

SECTION 2. Subject to the supervision and control of the City Commission, the Director of Public Works and Service shall establish and maintain all grade lines, and have charge of the making and preservation of all surveys, maps, plans, drawings and estimates of all public works, except as otherwise provided in the charter of the City of East Grand Rapids.

SECTION 3. He shall have charge of the cleaning, sprinkling and lighting of streets and public places, the collection and disposal of garbage and refuse, and the preservation of contracts, papers, plans, tools and appliances belonging to the City and pertaining to the Department of Public Works and Service.

SECTION 4. He shall manage and have charge of the construction, improvement, repair and maintenance of streets, sidewalks, alleys, bridges, viaducts and other public highways; of sewers, drains, ditches, culverts, canals, streams and water courses; of sewage disposal systems and flood protection; of comfort stations and all public buildings and works except as otherwise provided by law or by the charter of the City of East Grand Rapids; of boulevards, squares and other public places and grounds belonging to the City or dedicated to public use,

SECTION 5. He shall have charge of and supervise the construction, improvement, repair and maintenance of water works, property and service; and any other public service or public utility which the City may now own or hereafter acquire, except as otherwise provided in the Charter of the City of East Grand Rapids.

SECTION 6. This ordinance shall take effect March 15, 1936.

217. Dregge-Wagner. That the following ordinance be placed on final reading and be adopted by this Commission:

AN ORDINANCE RELATIVE TO THE MANAGEMENT AND CONTROL OF THE WATER SYSTEM IN THE CITY OF EAST GRAND RAPIDS.

THE CITY OF EAST GRAND RAPIDS ORDAINS:

Rules and Regulations

SECTION 1. The City Manager is hereby authorized and directed to make such rules and regulations as may be necessary for the management and control of the water works and water system which shall not be inconsistent with the laws and ordinances applicable thereto. Such rules, when made, shall be approved by the City Commission by resolution, and shall then have the effect and authority and shall be and become a part of this ordinance, and any violation of any of such rules and regulations so made and approved, shall be deemed a violation of this ordinance.

Penalties

SECTION 2. Any person violating any of the provisions of this ordinance or any of the rules and regulations which may be made as afore-

said, shall be punished by a fine of not more than \$100 or by imprisonment in the County jail for not to exceed three (3) months, or by both such fine and imprisonment in the discretion of the court.

SECTION 3. All ordinances or parts of ordinances in conflict with this ordinance or with any rule or regulation which may be hereafter promulgated by the City Manager and approved by the City Commission, shall be from that time repealed.

SECTION 4. This ordinance shall take effect March 15, 1936.

Yeas: Deane, Dregge, Weigle, Wagner, Collins - 5
Nays: 0.

218. The City Manager submitted the following rules and regulations regarding operation of the Water Works:

RULES AND REGULATIONS
GOVERNING THE USE AND SUPPLY OF WATER

1. RULES---PART OF CONTRACT.

Every person who shall be supplied, or whose property shall be supplied, with water by the Water Department of the City shall be deemed to have accepted, and approved, the rules of the city governing and regulating the supplying of water, and the same shall constitute a part of the contract between such person and the City. Wherever the word CONSUMER shall be used in the Rules and Regulations, it shall mean the owner or owners of the premises. The continuance of the consumer to take water after any amendment or change of these rules shall be deemed as acceptance of such amendment or change.

2. WORK TO BE DONE BY WATER DEPARTMENT,
LICENSED PLUMBER, OR BY SPECIAL PERMIT.

(a). All service connections with the principal mains, and service pipes from said principal mains to approximately two feet back of the curb line, or gutter line where there is no curb, including the stop or curb cock or valve, and box for same, shall be put in and installed only by properly authorized employees of the Water Department, acting under the direction of the Superintendent of said Department, at the expense of the consumer. The consumer of the property will be charged the actual cost of all labor and materials entering into such service connections, plus a reasonable percentage for overhead and use of tools, including also the repaving and maintenance of the roadway until restored to a condition equal to the existing roadbed before the excavation was made.

(b) From Curb Cock or Valve to Meter.

No person shall make any connection with the above mentioned curb cock or valve or extend the same to the meter, located either at the curb or within the cellar, except a regular employee of the Water Department, acting under the direction of the Superintendent, a duly licensed plumber or a person having a special permit from the Water Department.

3. AGENT OR OWNER.

The plumber designated and employed by the owner of the premises will be considered the agent of such owner while employed in the prosecution of the work of introducing water into said premises, and in no sense as the agent of the Water Department. The City will not be responsible for the acts of such plumber.

4. APPLICATION FOR SERVICE.

Every person desiring a supply of water through the principal water mains must make application at the office of the Water Department for a service pipe and connection with the City's mains. Such application shall be made in writing upon blank forms furnished by said Department and must be signed by the owner of the property or his duly authorized agent.

5. MATERIAL OF SERVICE PIPE.

The service pipe, between the corporation cock at the main and the curb cock at the curb, shall be extra heavy, AAA lead pipe, seamless copper tubing, cast iron water pipe or any combination thereof approved by the Superintendent of the Water Department. All pipe between the curb cock and the meter, wherever located, shall be of the same quality, approved by the Water Department.

6. OPENING OF CURB COCKS.

The curb cock or valve controlling any service shall not be opened or left open by the plumber or any other person after connecting said service at the curb, so that the water may be supplied to such premises by said service, unless the service pipe installation has been approved by the Water Department and the meter installation completed. In case of building operations, special permission may be given by the Water Department under such conditions as it may prescribe.

7. INJURY TO MAINS, PIPES, ETC.

Any person responsible for any injury to any main, pipe, hydrant, or other water facility, shall re-imburse the city therefor, and for the loss of water caused thereby. He shall also be responsible for any damage caused by such escaping water.

8. RESPONSIBILITY FOR TRENCH.

In the case of any excavation in any street or public grounds for the introduction of any water pipe or connection under authority of a permit from the Water Department, where the work is not done by said Department, the owner and plumber will each be held responsible for the trench opened by them.

Whenever any street or public ground is opened for making a connection with or laying any water pipe, or fixtures, public safety and convenience shall be duly regarded and conserved by the construction of such bridges across open trenches as may be required to accommodate business and to insure safety to the public. Red lights, barricades and all such other means of protection against accident must be provided.

9. LAYING OF SERVICE PIPES.

Service pipe will be required to be laid not less than four feet below the surface of the earth at any point to the inside of the foundation wall of the building into which the water service is introduced and, in case the final grade of the street or sidewalk has been officially determined and established, then the said service pipe shall be laid at a depth of not less than four feet below such established grade at all points, so that when the street and walk are graded, there shall be not less than four feet covering of each over the pipe at any point.

Service pipe laid in the same trench with a sewer shall be at least 18 inches distant from the sewer horizontally, and if the sewer is laid at a greater depth, shall be snelled into the bank to a solid bottom. In no case shall a service pipe be laid on a fill.

10. TRENCH INSPECTED.

Where trenches are opened for the laying of service pipes and such service pipes installed, said trenches, materials and workmanship shall be inspected by the Water Department before the same are back filled. The owner or the plumber performing such work shall notify the Water Department that such trench is ready for inspecting.

11. SERVICE PIPES INSTALLED AND MAINTAINED.

The owner of property into which water is introduced by a service pipe will be required to install and maintain, in perfect order, at his own expense, the said service pipe from the curb cock to the meter on or for his premises, including all fixtures therein provided for delivering

or supplying water for any purpose. In case such service and fixtures are not so kept in repair, the Water Department may make all necessary repairs, and renewals, or parts thereof. The expense of such work, and all materials and labor required, shall be paid by the property owner.

12. STOP AND WASTE COCKS.

Just inside of the basement wall of the building into which the service pipe extends, a stop and waste cock shall be conveniently located, and the pipes within the building so located, that all the pipes within the building may be emptied through said stop and waste valve. In order to thus empty the pipes throughout the building, a faucet within the building must be opened. The said waste cock must be open at all times when the service is not in use.

13. STEAM BOILERS.

In all places where steam boilers or hot water tanks are supplied with water from the city water supply, the owner or consumer must see that the plumber places a suitable safety valve, vacuum valve or other proper device to prevent damages from collapse or explosion when the water is shut off.

The Water Department, its employees or the City of East Grand Rapids shall not be liable for any damage resulting from the sudden shutting off of the water from any steam boiler or other fixture deriving its supply from the city water supply. When practicable, suitable notice of such shutting off shall be given to the owner or occupant.

14. FIRE SERVICE.

Stand pipes, or other pipes for automatic suppression of fires in buildings, which fixtures are only intended for such use, may be permitted to be attached to the water supply system. Application for such permits, accompanied by a plan of the proposed pipe system, must be submitted to the Superintendent of the Water Department for his approval. No additional fixtures, connections or extensions, shall be made in any fire protection system without the approval of the Superintendent.

At the option of the Water Department, no charge will be made for the use of water for that purpose; but all such pipes must be provided with a suitable valve, outside of the building, under the exclusive control of the Water Department, also, in the case of stand pipes, a valve must be provided, placed at the bottom of the stand pipe.

Where such installations include long sections of pipe line under ground, or wherever directed by the Superintendent of the Water Department, detector check valves with metered by-pass connection shall be installed to determine unauthorized use or leakage.

The entire cost of installing the fire service shall be borne by the owner of the building supplied.

15. FIRE SERVICES MAINTAINED.

The owners of the premises where pipe lines are in service for fire protection shall maintain such service pipes in perfect order over their entire length from the street main in to the premises, and they shall be responsible for any damage that may be caused by leakage, or the breaking or bursting of such pipes, unless such damage has been caused through some fault of the Water Department.

16. INSPECTORS MAY ENTER PREMISES.

Officers, or employees of the Water Department, upon presentation of proper credentials, may enter upon any premises where city water is being supplied or upon any premises when application is made for a permit to connect plumbing with the water pipes, for the purpose of installing, reading, removing or repairing meters, or for inspecting the plumbing and

fixtures of the water service, and all work in connection with such service.

17. LIMIT THE WATER FURNISHED.

The Water Department reserves the right to limit the amount of water furnished to any consumer should circumstances seem to warrant such action, although no limit may be stated in the application or permit for use; or said Water Department may entirely shut off the water supply used for any manufacturing purpose, or for furnishing power, or for lawn sprinkling, at any time, by giving reasonable notice to the consumer of such intended action.

In the case of making or constructing new work, in making repairs or leakage tests, the right is reserved to shut off the water from any consumer, without notice, for as long a period as may be necessary.

18. SHUTTING OFF.

It is understood and agreed that the Water Department or the City of East Grand Rapids shall not be liable for any damage which may result to any person or premises from shutting off of the water from any main or service, for any purpose whatever, even in cases where no notice is given.

19. CHANGE OF PRESSURE.

The Water Department of the City of East Grand Rapids shall not be liable for any damage or loss of any name or kind, to property or persons, which may arise from, or be caused by any change, either increase or decrease, in pressure of water supplied, from any cause whatever.

20. ALL SERVICES TO BE METERED.

All water supplied from the city water works to any person, firm or corporation, shall be supplied through meters furnished and installed by the city and the costs thereof shall be advanced by applicants for water and accompany the application therefor. The cost for meters so advanced by consumers shall be repaid to them by deducting twenty-five cents from the charge made for water consumed in each quarter until the water works system shall be the property of the city and at all times subject to the rules of the City Commission and under their control.

At the option of the Water Department, service lines used exclusively for fire protection may be left unmetered. Wherever surreptitious use of water by the consumer is discovered from such connection, the Water Department may either discontinue such service, or compel the owner to install a suitable meter at his own expense.

21. DAMAGE TO METER.

Any damage which the meter may sustain, resulting from the carelessness of the owner, his agent or tenant, or from neglect of either of them to properly secure and protect the same, including any damage that may result from allowing said meter to become frozen, or to be injured by hot water or steam getting back from a boiler or hot water tank, shall be paid to the Water Department by the owner of the premises.

Ordinary wear and tear of meters shall be the responsibility of the Water Department. Meters shall be repaired only by the Water Department or their authorized agents.

22. ACCESS TO METER.

Whenever a meter is set, whether at the curb, in the sidewalk or area vault or any part of the basement of any building, the space occupied by the meter and the meter box shall at all times be kept free from rubbish or obstructions of any kind.

The owner and tenant shall provide ready and convenient access to the meter so that it may be frequently read and examined by agents of the Water Department.

23. PERMIT TO SET OR REMOVE METER.

No meter shall be set or removed or disturbed without a permit from the Water Department. In general, all meters shall be installed and removed only by duly authorized agents of the Water Department.

24. METERS FOR BUILDING PURPOSES.

Water meters for building purposes shall be set by the Water Department at the expense of the contractor or person making such application therefor.

In case it is impracticable to place meters for such building purposes, water may be supplied to the contractor or owner at flat rates duly established.

25. DAMAGE TO WATER MAINS, SERVICE PIPES, ETC.

No person shall wilfully or maliciously break, injure, or disturb any water main, service pipe, meter, or water fixture or facility of any kind. No person shall disturb, remove, alter or tamper with any water meter. No person except members of the fire or water department, or department of public works, shall unlock, unscrew, or take off the cap or cover of any hydrant, or open or close the valve thereof, or in any manner operate or use, or attempt to operate or use, any hydrant (except under a special written permission issued by the Water Department).

Hydrants

26. CONTROL.

All street fire hydrants, or hydrants for private fire protection from unmetered service lines, are under the control of the Water Department. No person, except an authorized agent or employee of the Water Department, the Department of Public Works, Fire Department, or a person permitted by the Water Department to take water therefrom, shall operate, use or disturb any hydrant, or any part thereof, or take any water therefrom, under any circumstances whatever.

27. DAMAGES.

In case any damage to a street hydrant is done by any person having a permit for taking water from said hydrant, the holder of the permit shall pay such damages and all costs and expenses that may be incurred by reason thereof, on demand, to the Water Department.

28. USE OF HYDRANTS FOR CONSTRUCTION PURPOSES.

No person shall use any fire hydrant for construction or other purposes without first obtaining a permit for such use from the Water Department and making any advance payment demanded by said Department. All hydrants used for any construction purposes such as sewers, buildings, paving, etc., must have reducing couplings attached to the nozzles of the hydrants with an independent valve for regulating the supply.

The main valve of the hydrant must be opened full at the beginning of work each day, and remain open until the stoppage of work at night. The water supply shall be regulated by the independent valve. The hydrant shall be operated only by a proper hydrant wrench, which shall be obtained from the Water Department.

Water must not be allowed to run except when used. No leaking hose, pipe or joints shall be permitted. All persons using hydrants shall immediately obey any instructions or orders that may be issued by the Water Department to regulate the use of these hydrants.

If required by the Water Department, a meter shall be applied to the connection made with the hydrant, at the expense of the party using same, and said party shall pay for all water by meter measurement, at the stipulated rates.

Valves

29. OPERATED BY EMPLOYEES ONLY.

No person, except a duly authorized employee of the Water Department shall open, close or in any way interfere with any valve or gate in any water main, conduit or street pipe.

30. DISPLACED OR COVERED.

Any person who has disturbed or displaced a valve box so that the valve stem cannot be reached by a key, or who has covered a valve box or manhole cover of a valve chamber with dirt, paving, plank or other material shall immediately replace the valve box or remove the obstruction.

Cross Connections

31. CERTAIN CROSS CONNECTIONS NOT PERMITTED.

The Water Department having the management and regulation of the potable water supply furnished to the municipality shall not permit any physical connection between the distribution system of the said supply and that of any other water supply, unless such other water supply is regularly examined as to its quality by those in charge of the potable water supply to which the connection is made and is also found to be potable. This prohibition shall apply to all water distribution systems either inside or outside of any building or buildings.

32. FIXTURES NOT TO BE CROSS-CONNECTED.

No plumbing fixture, device or construction shall be installed, or shall be connected to the municipal water supply, when such installation or connection may provide a possibility of polluting such water supply or which may provide a cross-connection between a distributing system of water for drinking and domestic purposes and water which may become contaminated in such plumbing fixture, device or construction.

The inlet or inlets from the general water system on every plumbing fixture, device or construction shall be so placed as to be at all times above the level of the water held or stored in such fixture device or construction and shall be placed above all outlet and overflow vents therein; provided, however, that the said requirements shall not apply to any fixture, device or construction equipped with a device which, without requiring moving parts, automatically prevents the back flow into the general water supply of any water held or stored in such fixture, device or construction.

33. SERVICE RENEWALS UNDER PROPOSED PAVEMENTS.

On all streets where it is proposed to construct new pavements or to relay existing pavements, all wrought iron or steel service pipes, twenty-five years of age and over, shall be renewed under such proposed pavement at the expense of the property owner.

34. PAYMENTS BY CONSUMERS - REGISTRATION.

Generally, all water consumed shall be recorded and paid for by meter registration and at rates to be fixed by the City Commission, except as otherwise provided for. Such rates may from time to time be changed, as the City Commission may determine.

35. WATER RATES (WHO RESPONSIBLE FOR).

All charges for water, service pipe installation, repairs, damages caused by carelessness or neglect, penalties, etc., shall be made against the premises supplied, and the owner of premises shall be held responsible therefor. Such charges, if not paid, shall be a lien on the property benefited. All such unpaid charges shall be added to the next municipal tax against property.

36. METER BILLS.

Bills for metered water shall be payable quarterly. In each instance, meter bills, if not paid on or before the last day of the month

in which bills are rendered, shall be subject to a penalty for failure to pay promptly, such penalty rates to be fixed by the City Commission. Such penalty rates may from time to time be changed, as the Commission may determine. Failure to receive bill shall not act as a waiver of said penalty.

In the event that more than one meter is used upon the same premises, separate bills shall be rendered for each meter reading.

37. DELINQUENT WATER BILLS.

In case of non-payment by any person or persons of any water rate or meter charges at the time herein specified, the water furnished to such person or persons shall be shut off and stopped until all water rates are paid, together with the charge of One Dollar which shall be made for turning on such water supply.

38. IF METER FAILS TO REGISTER.

If the meter stops or fails to register, the consumer will be billed at the average daily consumption, over the year previous, as shown by the meter, when it is in order.

39. ABATEMENTS.

No abatement of the charges for water rents shall be allowed on account of the vacancy of any premises supplied with water, unless the water supply is turned off by employees of the Water Department and the meter removed. For such suspension of service there shall be a charge of \$1.00 for removing and \$1.00 for replacing the meter at said premises.

40. CHARGES IN CASE OF LEAKS.

All water that passes through a meter shall be charged for whether used, wasted, or lost by leakage except that the City Manager may make such abatement as seems to him right and proper in the case of underground leaks, where it does not seem that the owner or user could reasonably be expected to know of the leak or to have had a fair chance to stop the same. Such reduction shall not exceed one-half of the excess above the usual bill.

41. TEST OF METERS.

Upon the written application of any consumer of the municipal water supply made to the Water Department and accompanied by an inspection fee of \$1.00 the Water Department shall remove the said meter, bring the same to their shop and there test the same, in the presence of the owner, if he so desires. If upon such inspection the meter is found to be more than 2% fast said Water Department shall return to the consumer the above inspection fee and make such reduction in the current bill as the facts warrant. If, however, the meter does not over register more than the above mentioned 2%, the Department shall retain the above inspection fee as its expense for the testing.

42. EXTENSIONS OF MAINS.

Any person, or persons, owning real estate adjoining any street, avenue or alley in the City, in which there is no water main, may petition the Commission for such main and thereupon the Commission shall cause plans, specifications and estimates of the cost of constructing such mains to be made and the Commission may upon such person or persons depositing the amount of such estimated cost with the City Treasurer, cause such main to be constructed and pay the cost thereof out of such deposit. When any such petition is granted, all mains so constructed shall be under the control of the Commission and subject in all particulars to the provisions of this ordinance and the City Charter.

43. MISCELLANEOUS.

Wherever practical a meter shall be placed and the water consumption paid for at the established meter rates.

For building purposes where it is not advisable or practical to install a meter the owner or contractor may be furnished water at a fixed flat rate. In such instances the owner or contractor should make written application to the Water Department on a form provided by the Department giving the data required. The Water Department may demand payment in advance of the amount of charges for water at scheduled rates for work thus stated.

STATE OF MICHIGAN)
COUNTY OF KENT) ss.
CITY OF EAST GRAND RAPIDS)

We, the undersigned Board of Canvassers of the City of East Grand Rapids, Michigan, do hereby certify that the foregoing is a true and correct statement of the whole number of votes given for each of the several candidates for election to the several City offices voted upon at the non-partisan primary election held in the City of East Grand Rapids, in said County, and in the several wards thereof, on Monday, the 2nd day of March, A.D. 1936.

We do hereby further certify, in pursuance of the provisions of the Charter of said City, adopted June 19th, 1927, and the laws of the State of Michigan in such case made and provided, that Joseph R. Pierce received a majority of all the votes cast at said primary election for candidates for the office of Treasurer, and we do hereby determine and declare that the said Joseph R. Pierce is elected to the office of Treasurer of said City for the term ending May 1, 1937.

We do hereby further certify, in pursuance of the provisions of the Charter and said laws of the State of Michigan in such case made and provided, that J. Brayton Deane received a majority of all the votes cast at said primary election for candidates for the office of Commissioner from the First Ward, and we do hereby determine and declare that the said J. Brayton Deane is elected to the office of Commissioner from the First Ward of said City for the term ending May 1, 1938.

We do hereby further certify, in pursuance of the provisions of said Charter and said laws of the State of Michigan in such case made and provided, that John W. Dregge received a majority of all the votes cast at said primary election for candidates for the office of Commissioner from the Second Ward, and we do hereby determine and declare that the said John W. Dregge is elected to the office of Commissioner from the Second Ward of said City for the term ending May 1, 1938.

We do hereby further certify, in pursuance of the provisions of the said Charter and said laws of the State of Michigan in such case made and provided, that Russell J. Weigle received a majority of all the votes cast at said primary election for candidates for the office of Commissioner from the Third Ward, and we do hereby determine and declare that the said Russell J. Weigle is elected to the office of Commissioner from the Third Ward of said City for the term ending May 1, 1938.

We do hereby further certify, in pursuance of the provisions of said Charter and said laws of the State of Michigan in such case made and provided, that inasmuch as no one person received a majority of votes cast at said primary election for candidate for the office of Constable, we do hereby determine and declare that no one is elected to the office of Constable of said City.

IN WITNESS WHEREOF, we have hereunto set our hands and affixed the seal of said City of East Grand Rapids at the said City of East Grand Rapids, this 5th day of March, A.D. 1936.

251. Matter of automobile accident on Lakeside Drive involving one of the City police cars.

Referred to Police & Fire Committee, Manager and Attorney.

252. Opinion of City Attorney regarding petitions for offices of elective officers and regarding sticker candidates at primary elections:

"My opinion has been requested as to the proper construction of Section 8 of Chapter VII of the City Charter, which reads as follows:

'Section 8. Candidates for elective offices, except city Commissioner, shall be nominated from the City at large by petition. Candidates for the office of City Commissioner shall be nominated by petition and elected by the qualified electors of the ward in which they reside. Each nominating petition shall be signed by not less than twenty-five qualified electors and shall be filed with the City Clerk before 5 o'clock in the afternoon of the twentieth day before the primary election day. Each elector signing such petitions shall add his residential street and number and date of signing, and if any elector shall sign petitions for more candidates for any office than the number to be elected to such office, his signature shall be void on all petitions for that office. Nominating petitions shall be on blanks furnished by the City Clerk'.

Under the express wording of this section of the Charter, it is my opinion that candidates for elective offices must be nominated for such offices by proper petition executed and filed as therein set forth. This Charter provision further requires that such nominations shall be completed and filed with the City Clerk before 5 o'clock in the afternoon of the 20th day before the primary election day.

4/6/1936

The question has been presented whether or not it is permissible for candidates for such elective offices to run for nomination for such offices at the non-partisan primary election held for the purpose of nominating such officers, without having previously filed nominating petitions--in other words, whether it is permissible for candidates for nomination to run on slips at the nominating primary.

It is my opinion that such procedure is not in accord with Section 8 of Chapter VII of the City Charter, and, therefore, that all writing in or pasting on the official ballot of names of candidates, not appearing thereon, at the time the official ballot is handed to the voters, is contrary to the Charter provision and that such ballots are thereby rendered null and void for any purpose. "

Dregge-Deane. That this opinion become a part of the minutes of this meeting and a copy be given the Election Board on election day.

BY COMMISSIONERS FINCH-DREGGE:

WHEREAS, by resolution adopted September 8, 1936, it was determined, subject to the approval of the Michigan Public Debt Commission, to issue refunding bonds as follows:

\$35,904.63 Special Assessment Refunding Bonds, dated
October 1, 1936,

\$39,800.00 Special Assessment Refunding Bonds, dated
November 1, 1936,

\$ 7,000.00 General Obligation Refunding Bonds, dated
November 1, 1936,

AND WHEREAS, by order dated September 23, 1936, the Public Debt Commission approved the issue of said bonds;

AND WHEREAS, on October 12, 1936, said bonds were sold at public sale to McDonald, Moore & Hayes, Inc., for \$83,130.63 and accrued interest;

IT IS HEREBY RESOLVED that the Mayor and City Clerk execute said bonds on behalf of the City, in the form specified by said resolution of September 8, 1936, and deliver them, when executed, to the City Treasurer, and that the City Treasurer deliver said bonds to McDonald, Moore & Hayes, Inc., on payment of the purchase price, as aforesaid.

RESOLVED, FURTHER, that the City Treasurer deposit the proceeds of said sale in the Peoples National Bank of Grand Rapids, Michigan, in a special trust account to be used for the payment of the bonds refunded thereby, and for no other purpose.

RESOLVED, FURTHER, that in each year while any of such bonds shall be outstanding, a tax shall be levied sufficient to pay all interest on said refunding bonds and any installment of principal falling due before the following tax collection, provided that such levies may be reduced by the amount of cash on hand from other sources applicable to the payment of said bonds.

RESOLVED, FURTHER, that all collections of taxes heretofore levied for the payment of the bonds refunded shall be set aside for the payment of the refunding bonds;

RESOLVED, FURTHER, that all collections of special assessments of the several districts shall be set aside for the payment of the corresponding issues of refunding bonds.

BY COMMISSIONERS FINCH-DREGGE:

WHEREAS, by resolutions adopted September 8th and November 23rd, 1936, it was determined, subject to the approval of the Michigan Public Debt Commission, to issue refunding bonds as follows:

\$16,500.00 Special Assessment Refunding bonds, dated January 15, 1937;
 \$32,000.00 Special Assessment Refunding bonds, dated January 1, 1937;
 \$34,000.00 Special Assessment Refunding bonds, dated January 1, 1937;
 \$65,611.43 Special Assessment Refunding bonds, dated January 1, 1937;
 \$20,000.00 General Obligation Refunding bonds, dated January 1, 1937;
 \$ 9,000.00 General Obligation Refunding bonds, dated January 1, 1937;
 \$14,000.00 General Obligation Refunding bonds, dated January 1, 1937;

AND WHEREAS, by orders dated September 23rd, 1936 and November 19th, 1936, the Public Debt Commission approved the issue of said bonds;

AND WHEREAS, on December 7th, 1936, said bonds were sold at public sale to McDonald, Moore & Hayes, Inc., for \$194,112.43 and accrued interest;

IT IS HEREBY RESOLVED, that the Mayor and City Clerk execute said bonds on behalf of the City, in the form specified by said resolutions of September 8, 1936 and October 26, 1936, and deliver them, when executed, to the City Treasurer, and that the City Treasurer deliver said bonds to McDonald, Moore & Hayes, Inc., on payment of the purchase price, as aforesaid.

RESOLVED, FURTHER, that the City Treasurer deposit the proceeds of said sale in the Peoples National Bank of Grand Rapids, Michigan, in a special trust account to be used for the payment of the bonds refunded thereby, and for no other purpose.

RESOLVED, FURTHER, that in each year while any of such bonds shall be outstanding, a tax shall be levied sufficient to pay all interest on said refunding bonds and any installment of principal falling due before the following tax collection, provided that such levies may be reduced by the amount of cash on hand from other sources applicable to the payment of said bonds.

RESOLVED, FURTHER, that all collections of taxes heretofore levied for the payment of the bonds refunded shall be set aside for the payment of the refunding bonds;

RESOLVED, FURTHER, that all collections of special assessments of the several districts shall be set aside for the payment of the corresponding issues of refunding bonds.
