NOTICE

April 21, 2025

Dear Reeds Lake Residents/Property Owners:

Please find the 2025 schedule for EGLE permitted weed/algae/invasive species treatments planned for Reeds Lake this year with PLM Lake and Land Management (PLM) on the rear side of this notice. **Please note the schedule and mark your calendars accordingly for the season.** Treatment is noted as the “week of” because treatment is subject to weather conditions and therefore providing exact dates for each treatment is not possible. Each treatment is followed up with sampling and inspection by PLM to monitor the effectiveness. Additional treatments may take place if needed and are noted on the notice schedule as “optional.”

During treatment PLM staff will post yellow or green 8.5 x 11-inch notices adjacent to the shoreline on a tree or post that will indicate the date of the treatment, a list of products used and corresponding restrictions associated with their use.

PLM Lake and Land Management staff members are EGLE certified applicators. Any questions regarding the products used or the treatment process can be answered directly by PLM Environmental Scientists by calling 616-891-1294. Additional questions may be directed to the Department of Public Works by calling 616-940-4817.

Reeds Lake has been scheduled for the week of:

WEEK OF	DESCRIPTION	WEEK OF	DESCRIPTION
4/7/2025	Spring Water Quality Sampling	6/16/2025	Weed & Algae Treatment
5/5/2025	Spring Vegetation Survey	7/14/2025	Weed & Algae Treatment, E.coli Testing
5/12/2025	Weed & Algae Treatment	8/11/2025	Weed & Algae Treatment, AVAS Survey, WQ

EGLE permitting restrictions, national holidays, and/or weather conditions may influence the timing of treatments throughout the 2025 season. PLM treats each lake according to a schedule or season plan, established with the cooperation of your lake association, lake board or residents on the lake. The treatment schedule is approximate. Please watch your shoreline for the posting of the 8.5x11 inch, yellow or green signs. The signs will indicate the date of the treatment, the products used, and any restrictions on the use of treated water for swimming, watering lawns, etc. The property owners in this area are planning to have the waters chemically treated to control lake weeds and/or algae. This notice is being circulated in accordance with Department of Environment, Great Lakes and Energy (EGLE) procedures. Below is a list of herbicides that **may** be applied to the lake and the associated use restrictions. On the day of treatment, signs will be posted along the shoreline within 100 feet of treatment areas that indicate what products were used and specific water use restrictions that apply:

*Site-Specific recommendations to limit ornamental irrigation with ProcellaCOR, Renovate & Sculpin granular treated water will typically last 2-14 days. Contact PLM for further information.

The chemicals used for Aquatic Nuisance Control are registered by the U.S. Environmental Protection Agency and the Department of Environment, Great Lakes and Energy. The potential for damage to fish and other non-target organisms is minimal provided that the product is used as directed on the product label and the permit. To minimize the possible effects on health and the environment, the treated water is restricted for the above purposes.
